

LION[®]
ready for action

INTRODUCING

EVO[™]

The
Next
Evolution
of V-Force[®]
Gear

FEATURES & BENEFITS

- ▶ **VEST-STYLE COAT DESIGN:** A vest-style coat design built for fluid motion. Reach, lift, twist, and crawl—without resistance.
- ▶ **EXTENDED BI-SWING BACK + INDEPENDENT SLEEVES:** Full-torso and shoulder flexibility built in for climbing, stretching, and working overhead without the coat pulling out of position.
- ▶ **SELF-ADJUSTING BOOT CUFF:** Magnetically assisted pant cuffs open wide for fast donning, doffing and staging over boots.
- ▶ **MAGNETITE[™] MAGNETIC CLOSURES:** Storm flap, collar, and fly use glove-friendly magnets for fast, secure operation under real fireground conditions.
- ▶ **RETRACTABLE COLLAR:** Slide it out for full protection; stow it when not needed to reduce bulk.
- ▶ **V-FIT[™] ELBOWS & KNEES:** Ergonomic shaping designed for crawling, kneeling, climbing, and repeated fireground movement.
- ▶ **HIGH/LOW COAT HEM:** A shorter front hem reduces bulk when crawling or kneeling and stays clear of SCBA belts and harnesses, while the extended rear hem maintains lower-back coverage.
- ▶ **REDZONE[®] COMPATIBLE:** Integrates with LION's RedZone particulate-blocking technology for layered protection.

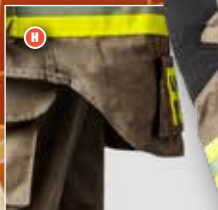

HIGH-PERFORMANCE FIRE PROTECTION DESIGNED TO WORK WITH YOU ON THE JOB.

ready for action

KEY DETAILS

- A. Vest-Style Coat Design
- B. Extended Bi-Swing Back
- C. Self-Adjusting Boot Cuff
- D. Magnetite™ Magnetic Closures
- E. Retractable Collar
- F. V-Fit™ Elbows & Knees
- G. Ventilated™ Trim
- H. High-Low Coat Hem

EVO™

The
Next
Evolution
of V-Force®
Gear

V-Force EVO was created by listening to how firefighters move under pressure. Every design decision comes back to one idea: turnout gear should move with you, not remind you it's there. From the moment you put it on, EVO feels different. The vest-style coat design moves naturally with the body, staying balanced as you reach, lift, crawl, or work low. Across the back and shoulders, the gear opens up when you do, giving you room to move without stiffness or bulk. The details are intentional. Closures work easily with gloved hands. The pant cuff opens wide for boots, then settles back into place once you're moving. The retractable collar provides added protection when conditions demand it, then stows cleanly to stay out of the way. Extended V-Fit™ elbows and knees add thermal protection and comfort during kneeling, crawling, and repeated ground work. Extra protection is there when you need it and out of the way when you don't.
